

Normalized Tree Cover Percentage UHI Indicator

Tree Cover Percentage can be used as a UHI indicator. In this case we used Google Earth Engine and collected the v1.8 Hansen tree cover collected from the Landsat satellite constellation. The spatial resolution of the collected data is 30m.

UHI Indicators

Normalized Tree Cover

- 0 - 5.7
- 5.7 - 17.4
- 17.4 - 29.9
- 29.9 - 52.4
- 52.4 - 85.4
