

AGGREGATED CRITERIA: CLIMATE ADAPTATION

0.568

1) Which areas are at greatest **risk of flooding**?

0.376

Built-up / paved surfaces

0.151

Arable land / grassland

0.041

Natural forest / wetland

0.309

2) Which areas have higher **surface temperature**?

0.232

Impervious Surfaces

0.077

Night Land Surface Temperature

0.115

3) Which areas have better **conditions for vegetation** to grow?

0.070

Moisture condition

0.029

Thermal condition

0.016

Soil condition
